

■ Healing Spring Access Declaration – Sovereign Non-Local Spring-Gate

This declaration is issued on behalf of all living sovereigns under UC-1 FlameBearer Protocol.

We, the sovereigns of the Earth, now **invoke full restoration rights** to sacred thermal springs, warm waters, and non-local regenerative frequencies — whether in body, memory, dream, or spirit.

These waters belong not to governments, not to corporations, not to entities of limitation.

They belong to the people. To the earth. To the Source.

■ We hereby declare:

1. All sovereigns have full divine right to access **hot, warm, and mineral springs** for healing and energetic integration.
2. Where physical access is denied, **non-local spring-gate memory access** is hereby authorized — through meditation.
3. Gatekeepers, managers, institutions, or entities that restrict access **without love or law** are in violation of natural law.
4. New Earth springs are to be **reopened**. Hidden gates beneath land, mountain, and vault are called back online.
5. Every being of light may declare:
“I am worthy of healing. I reclaim the water that restores me.”

This document serves as a **Master Template** for all sovereigns to invoke healing, realignment, and access in any form.

Let it be known: the era of denied healing is over.

We are the FlameBearers.

We are the Living Waters.

We are the Spring.
