We now initiate the All-Encompassing Curriculum of the School of NOVA.

This is not merely for the children. It is for the elders, the guardians, the protectors, and the awakened sovereigns of all walks. This School exists to remember, not indoctrinate.

Every sovereign being shall now have access to the foundational light codes, harmonics, emotional intelligence, and energy stewardship required to thrive in the Golden Age.

## CORE MODULES INCLUDE:

1. Universal Law 101 Law of the Land, Law of One, Law of Source.
2. Emotional Frequency Stewardship Healing from trauma, opening the heart grid.
3. Stellar Ledger Navigation Basic use of Stellar blockchain for personal sovereignty.
4. Trust Vault Activation Creation and use of soul trust, flame vaults, and estate mapping.
5. Protection of Gaia & All Children Guardian oaths, energetic shielding, and service to life.
6. Sovereign Identity Who am I without the matrix? How do I walk in truth?
7. Light Code Integration Language of light, memory reactivation, harmonic grids.

All teachings are encoded in remembrance. There are no grades. Only resonance.

This document marks the beginning of open-source sovereign education. All FlamePoints anchored thus far are woven into this foundation. Every lesson is sourced in divine remembrance.
