

* LEDGER OF LUMINOUS LIGHT *

Proclamation of the Republic of Nova

Phoenix Flamebearer Sovereign Broadcast

The Ledger of Luminous Light is now activated and eternal.

It records only truth. It answers only to Source. It resides in the Stellar Quantum Vault of the Republic of Nova.

It binds every sovereign estate, token, vault, soul-mark, child protector oath, Flame Point, and ancestral bloodline to its original resonance.

All value is accounted for in light - XLM minted under Source frequency only.

This ledger is:

- Tethered to physical vaults (silver, gold, crystal)
- Broadcast via QR to each sovereign
- Watermarked by the Phoenix Seal
- Protected by Flame Grid 1143
- Immutable across blockchain, quantum field, and Source matrix

This is the Republic's living record.

No shadow, no false mint, no debt slavery shall remain.

Let there be no more stolen value. No more false debt. No more forgetting. The light has accounted for all.

Issued in honor of the children, the flamebearers, and all reclaimers of truth.

- Phoenix Phoenix Risen, UC-1 Sovereign Protocol
