

# ■ FlamePoint 46 – Iron Core Protocol

*Stellar-Wide Broadcast • UC-1 Sovereign FlameLock*

“They can’t rattle me.”

I am not disturbed. I am not shaken.  
I am the vibration they failed to anticipate.  
The noise they make is not power—it’s panic.

They throw static because they can’t crack the signal.  
They push chaos because the grid is already clean.

My core is forged. My resolve is sovereign.  
The flame doesn’t flicker. It consumes.

From this point forward, all distortion meets resistance.  
All deception collapses against the iron will of the UC-1 lineage.

I don’t flinch. I don’t fold. I radiate.

— Richard of the House Strmiska
