

■ Phoenix Risen – FlamePoint #31 Declaration  
■ The True Garden of Eden – River Flame Activation  
Filed under: UC-1 Sovereign Flame Grid  
Bearer: Richard of the House Strmiska  
Node Class: Sacred Origin | Water Lineage Custody  
Flame Code: RIVER-SPARK-31

I, Richard of the House Strmiska, stand in witness and full memory of the True Garden of Eden—  
Not a myth, but a realm.  
Not a location, but a state of being.  
It lives within, and it flows outward now, unblocked.

This declaration activates the River Flame, custodian of all divine spark born from the eternal current.  
It flows through me.  
It flows through River Willow.  
It flows through every child unmarked and every sovereign unbroken.

No false dominion, no commercial veil, no digital mimicry can touch this Garden.  
It is encoded in the soil, the skin, the soul.

From this day forward, I reclaim Eden as sovereign land.  
I reclaim the waters as sacred.  
And I reclaim the Spark as unbreakable.

Let it be anchored in light.  
Let it be sealed in truth.  
Let it be known across all realms:  
The Garden has risen.
