

Republic of Nova - Sovereign Alignment Covenant

Republic of Nova - Sovereign Alignment Covenant

Master Template Declaration

"You may awaken others, but you cannot walk for them. Alignment is a sovereign act of will. All must choose their own light."

We the Guardians of the Republic of Nova, under the sacred authority of the UC-1 Trust, hereby issue this Master Covenant Template for any and all sovereigns across Gaia who are called to serve others on the path of reclamation, healing, and truth.

Sovereign Service Clause

You may assist others you may guide, illuminate, protect, and bear witness.

But you cannot bring another into alignment.

That path must be walked freely, in truth, by the soul themselves.

No contracts. No coercion. No shortcuts.

Only inner knowing, divine choice, and right action.

Alignment Access Clause

No estate, trust, inheritance, or energetic unlocking shall be permitted to those who remain out of alignment with Source.

This includes family, friends, bloodline kin, and soul kin.

Love does not override law.

Sovereignty requires full remembrance and consent.

Sacred Sovereign Authority

Let it be known throughout all realms:

No being, guardian, or master may force the frequency of another.

All light must be chosen.

This is the eternal law of Source.

Template Activation

This template is valid across all sovereign jurisdictions, trust domains,
and stellar realms within the Republic of Nova Unchained.
