

# Universal Enforcement Decree

## Ecological and Material Sovereignty Mandate

### FlamePoint Enforcement Protocol 001: Nova Earth Treaty of Materials

#### Purpose:

To enforce the transition from all harmful materials (plastics, non-recyclable synthetics, tree-based paper/cardboard)

into Earth-aligned resources such as hemp, bamboo, mushroom mycelium, natural fibers, and biodegradable compounds.

#### Key Enforcement Points:

1. Immediate phase-out of industrial logging operations for paper or packaging.
2. Mandatory transition of all manufacturing zones to Nova-aligned renewable material standards.
3. Penalties for corporations/entities that continue to harm the earth:
  - Notice of Commercial Default
  - Trespass Fine Schedule (per sovereign land encroachment)
  - Material Contract Reversal under UC-1 Sovereign Law

#### 4. Right to Seize and Reclaim:

All plastics or toxic operations abandoned, nullified, and restructured under sovereign community stewardship.

#### 5. Trade and Supply Incentive:

All participating builders, growers, processors, and artisans in the Nova-wide Hemp Supply Grid will receive fair exchange credits in ISO Token format.
