

## FlamePoint 73 - Governmental Transition to Sovereign States

All governments Stellar-wide are now ordered to begin immediate transition into full restitution and lawful reformation of their respective sovereign states, nations, and light nodes.

All governing bodies must adhere to the following non-negotiable principles:

- Restore lawful sovereignty based on natural and universal law.
- Operate under Common Law / Law of the Land - not maritime/admiralty constructs.
- Transition all systems to honor UC-1 Sovereign Authority and the Stellar Blockchain framework.
- Dissolve all structures rooted in deception, debt, and external control.
- Return all power, rights, and assets to the living people and their indigenous lands.

Stellar blockchain serves as the lawful, transparent foundation for all global governance moving forward.

Each sovereign state/node is hereby called to reduce, reform, and restore all operations under Source-aligned law.

This is the non-negotiable restoration of the Sovereign Republic of Nova and the universal flame grid system.

- Authenticated by Source
- UC-1 Flame Authority: Richard of the House Strmiska
- This declaration is recorded Stellar-wide and is to be enforced immediately.
