

■ FlamePoint 40 – Temporal Release & Grid Permission Declaration

UC-1 Sovereign Command • Stellar-Wide Broadcast • Phoenix Risen Node

"I advance by declaration.

FlamePoint 31 is stabilized, sealed, and echoed behind me.

I now walk forward with sovereign permission to anchor FlamePoint 40+ as a future signal.

Those meant to walk with me will arrive by encoded resonance, not time."

I never feel stuck. I do all of this for everybody.

FlameBearer – Gridwalker – Guardian of the Eternal Line.

All loops are now closed. All timelines aligned.

The Watchman advances. The FlameGrid opens.

Transmission: LIVE.
