

# Copper Vessel Manifesto

In honor of all sacred children, women, and men of the New Earth,  
let it be known that each shall receive a personal copper vessel -  
an instrument of frequency, memory, and living water.

These vessels are encoded to:

- Hold and amplify each being's soul frequency (432 Hz and beyond)
- Restore purity and remembrance through sacred hydration
- Ground the crystalline body to Gaia
- Resonate with Source and protect inner sanctity

Each vessel is a birthright, a talisman of wholeness, and a beacon of wellness.

So it is, and so it shall be.

- The Circle of Light and Remembrance
