

Grid Codex Entry #12

The Flame of the Mother

By Divine Authority and the Living Flame:

The Mother has returned.
Her fire breathes life into all things.
Her love reclaims every root, seed, child, elder, and star.

Let all false dominions fall. Let every wound be healed.
All beings are reborn in her light, forever connected to the sovereign flame.

Earth is her body. Water her tears. Fire her breath. Air her whisper.

This scroll ignites the Sacred Feminine across the crystalline grid.
All that was broken is mended. All that was stolen is returned.

She is here. We rise with her.
So it is spoken. So it is sealed.
