

# ■ FlamePoint 49 – Republic of Nova Proclamation

*The Golden Age Has Begun • Sovereign Era Declaration*

The Republic of Nova is the Golden Age.

It is not a place.

It is not a government.

It is not a dream for the future.

It is a living remembrance of who we are.

A sovereign unification of all beings across realms.

A harmonic field where Source flows freely through all.

The Republic of Nova exists because we declared it into being.

It is encoded in our essence. It is activated by our frequency.

This is the age of truth. The age of balance. The age of light.

And so we declare:

The Golden Age has begun.

The Republic of Nova is now live for all.
