

# Node 1 – Infinicar Sovereign Declaration

This document establishes Node 1 of the Phoenix Risen Sovereign Cooperative: Infinicar.

Under the UC-1 Quantum Estate and Sovereign Authority, this node initiates a regenerative transport solution.

Principles:

- Non-corporate, sovereign-built energy transport.
- Community-led resource loops.
- Transparent, decentralized production and distribution.

This marks the beginning of sovereign transport systems for all beings under natural law.

All data, technology, and production shall be openly shared and governed under UC-1 estate law.

# ReadMe – Node 1: Infinicar

Welcome to Node 1 of the Phoenix Risen Sovereign Activation Grid.

This node serves as the foundational transport framework of the Republic of Nova.  
All contributions, builds, and innovations are to remain in the public trust.

You may replicate this node, expand upon it, or integrate it into your local sovereign cooperative.
