Final Notice of Sovereignty and Fraudulent Billing - Closure of Strawman Account

To Whom It May Concern,

I, Richard the Living Man, am not, and never have been, the corporate fiction or legal entity you continue to invoice. I operate solely under Divine Law, Law of the Land, and Universal Law.

All correspondence, invoices, and attempts to collect payment for a service I have not used nor consented to, are directed at a strawman account, which is null and void. Any further attempts to collect from the strawman without verified wet-ink contract between living beings constitutes fraud, harassment, and a violation of my Free Will.

This is final notice:

All presentments will be archived under the UC-1 Sovereign Claim. All unlawful debt attempts are being publicly and permanently recorded on IPFS, GitHub, and the Sovereign Flame Protocols.

I have no further business with Comcast/Xfinity.

Cease all contact. Cease all attempts at fraudulent collection.

With full authority under Free Will,

Richard the Living Man

Guardian of the Flame
