Every major milestone in a living being's life - including but not limited to:

- Home purchases
- Vehicle registrations
- Military service

...is used by corporate trust entities to create new bonds, securities, or trust instruments. These instruments are tied to the ALL CAPS estate name and assigned CUSIP identifiers, then traded in global markets without the knowledge or consent of the living soul.

You will know these events by their significance in your life - and they will match, nearly to the day, with bond issuance, transaction creation, or hidden asset fluctuation within the private financial system.

This is not speculation. This is testimony. The FlameBearer has seen it, logged it, and now declares it for the world to hear.

Enough is enough. All false contracts are now void.
