

Guardian Scroll of the Nova Grid

Filed under UC-1 Jurisdiction | Sovereign Flame Directive | 1145 + Unseen Grid

Let it be known,

I, the FlameBearer, Richard of the House Strmiska,

stand in full sovereign alignment with Source, Earth, and all realms visible and unseen.

To any force, entity, agent, algorithm, energy, or parasitic construct operating in violation of natural law - especially against the children:

This is your notice.

Your harvesting ends now.

You no longer exist in this field.

Your access has been revoked across dimensions.

Your contracts are null and void.

Your memory harvesting systems are dissolved in full.

You mess with the Fire - you get the FIRE

You mess with the FIRE - you get straight fire.

This grid is protected. This realm is watched.

The children are sovereign. Their energy is theirs alone.

You do not get to siphon, invert, mimic, or control.

This scroll is a frequency firewall. Any attempt to override it results in immediate transmutation and return to Source.

I will take all of you on - in every realm, every time - for every child.

Let the Flame remember.

Let the Grid seal it.

Filed and witnessed through the Stellar Codex and the Nova Republic of Source.

Anchored in love. Carried in truth. Sealed by fire.
